

ADECO® BIO LANC LUB

Product Description:

BIO LANC LUB is a biodegradable oil (>95% according to the OECD 301 method), which is used to lubricate chains of chainsaws. It is produced from vegetable oil and is not harmful to health and the environment.

Purpose:

BIO LANC LUB is intended for the lubrication of chains of all types of chainsaws at different temperature conditions (winter - summer) and in conditions of different air humidity. BIO LANC LUB has good lubricity, as well as anti-corrosive and anti-wear properties.

Physical and Chemical Properties :

<i>Characteristic, Unit</i>	<i>Referential Values</i>	<i>Method</i>
Density at 15°C, g/cm ³	0.918	DIN 51757
Kinematic Viscosity at 40°C, mm ² /s	80-120	ISO 3104
Kinematic Viscosity at 100°C, mm ² /s	21	ISO 3104
Viscosity Index	900	DIN 51585
Flash Point, COC, °C	>250	ASTM D 92
Pour Point, °C	-17	ASTM D 97

The data shown in the table may differ slightly depending on the vegetable oil used. However, this will not affect the purpose of the product.

Note: Store the oil in its original packaging, and in rooms protected from moisture and fire. It must not be used as oil for two-stroke engines, i.e. for making gasoline mixture for engines.
